"IN VILLEIN, FRIDAY, JUNE 2."

Town and Vicinity.

POLICE STATION.—The programme was varied last night, the station being tenanted by two groups and two prisoners.

REAR OF FRONT.—Where informed that the front of Monday night had some damage in the country, the barney having been severely nipped in the side.

SUMMER VACATION.—The Minister of Education has authorized the closing of the public schools on the 7th of July, for the summer vacation.

FRONT.—As have lately been crowded out of London's having parties, owing to lack of sufficient assistance, are informed that their wants can now be attended to promptly, Mr. Condon having secured an additional first-class assistant.

THE OTTIE TRAIL.—Mr. Job Lingham received this morning, direct from Chicago, a fine lot of goods for the Belleville market. This is the first importation of the kind made here, and we wish Mr. Lingham every success in his venture.

HOT.—Summer has come upon us suddenly this year, the change within the past four days having been little short of marvellous. On Monday night there was a heavy frost, but yesterday, Prof. Bell informed, as his ordinary thermometer marked 82° in the shade, and in the sun 104°. This is about as hot as most people will wish to see.

CANADIAN BROS.—Messrs. Dawson Bros., of Montreal, announce the publication of Mr. Vanier's promised book, "The English Hawks and Owls of Canada." The work is beautifully illustrated with 30 large photographic plates of as many different birds, the descriptive matter is highly interesting, and in all respects, the work is first-class. No advertisement.

OSWEGO BUREAU AND SACRED CONCERT.—The Oswego Bureau and Sacred Concert, under the auspices of the Rev. Father, will be given in the City of Montreal, on Wednesday evening, next, 7th inst. A large performance of the kind has been promised to be in every respect a most successful one. Tickets which have been placed at 30 cents each, can be had from Messrs. Nathan Jones, and L.W. Jones, and from the Organ Committee.

RIVALRY.—A runaway, which occurred this morning, caused the breakage of a wagon belonging to Mr. Jacob Crothers. Mr. Crothers' horse and Mr. Crothers' were riding in front of Croth's grocery, when a runaway team came dashing down Front Street. Mr. Price's horse turned to run, but in doing so the wagon to which Mr. Crothers' horse was attached got badly entangled, and the wagon, which caused the runaway, was caught by Mr. Tait, butcher. These horses were caught before anyone harm was done.

GOING TO THE CENTENARY.—The Oswego Bulletin of May 31st says:—"Our Canadian friends are going forward to the centennial with a rush. This morning the steamer Oswego Belle arrived with sixty people destined for the Centennial in Philadelphia, who took trains via the D. L. & W., and Lake Shore roads. The managers of the Bay of Quinte and Oswego Navigation Company have excellent facilities for carrying people from the country around the Bay and Kingston to Philadelphia."

A NEW BARK IN.—The Port Hope Times of the 3rd May thus speaks of a new bark introduced into this town by Mr. T. H. McNelly:—"Mr. T. H. McNelly, of this town, is making a very superior quality of Black Ink, which is superior to any other in the market. It is a first-rate ink, and is generally used. It writes freely, is bright on paper, and neither corrodes nor gums the pen. We recommend the ink to all who have a great deal of writing to do. As a Canadian pen and ink, it is a great success."

DOMINION DAY.—The joint Committee of the St. George's and St. Andrew's Societies met last night and resolved to hold a picnic and regatta at Massena Point on the evening of July 4th. The regatta will be a very interesting one, and the picnic will be a most successful one. The regatta will be a very interesting one, and the picnic will be a most successful one.

FROM NEW BRUNSWICK.
A STABBING CASE.
THE MURDERER ON TRIAL.

THE MURDERER ON TRIAL.
The murder of O'Neil, awaiting execution in St. John, N.B., June 2.—At Belcher last evening, Caleb Richardson, barrister, was sitting twice in the left by Capt. Stock. Richardson was charged with the murder of O'Neil. He is charged with the murder of O'Neil. He is charged with the murder of O'Neil.

Neurlogia.
The brain and its members, which are the seat of the mind, and so difficult to understand, are the subject of a new book, "Neurlogia," by Dr. J. M. Moore. It is a most interesting and valuable work, and is highly recommended to all who are interested in the subject.

PROSECUTOR DEMONSTRATION.—Some time ago the idea was mooted that a celebration of the centennial anniversary of the settlement of the County of Orleans, should take place on the 1st of July, now near at hand. If such a celebration is to take place, it is clear that necessary arrangements must be made, and it is not short in which action can be taken. Belleville, as the capital of the Bay of Quinte, is the most fitting place for the celebration, and we have no doubt that if the matter be gone into, it can be satisfactorily arranged.

Town and Vicinity.

ALBANY COLLEGE.—The examinations in
this institution will commence on Monday.

THE CHIEF.—There were no prisoners in
the cells last night, and only one person
could be seen in the morning.

CAMP MEETING.—The annual camp meet-
ing is to be held on Richard Sprung's farm,
in Ameliasburg, commencing on Tuesday,
6th inst.

QUARTER SESSIONS.—The next sitting
of the Court will be on Tuesday, 13th
inst. There is a probability of a large
number of cases being brought on for trial.

GRAND LOOK MEETING.—The annual
meeting of the Grand Orange Lodge of
British America will be held in the Court
House, Cobourg, commencing on Tuesday,
6th inst.

COUNTY COUNCIL.—The June session of
the County Council will commence on Tues-
day next, at 2 o'clock, p. m. It is likely
that the session will be a lengthy and in-
teresting one.

FIRES ALARM.—The fire brigade was
called out last night at 8:30, but the alarm
proved to have no further cause than the
burning of some rubbish in a garden in
Munroeville.

"PREDICTS" BOYS.—The Grand Lodge of
"Predicts" Boys for British America will
meet in Toronto on Tuesday, June 13th.
The delegates from Maiden City Lodge,
Belleville, are Messrs. James Moon, John
Tweed and Richard Watson.

BROKE HIS LIMB.—Whitcomb one of the
hose carts belonging to No. 1 Company was
driving down town street after the latest
night, a boy named Robert Sullivan,
who had held of the rope, fell and one
wheel of the cart passing over his leg broke
it. The parents of the boy reside in West
Belleville.

WATERING THE MARKET.—Mr. Hill again
this morning performed the generous act
of watering the market square, without
charge, for the public benefit. It was a
service which was very much appreciated,
the dust not being so troublesome or dis-
turbance to articles exposed for sale, as
usual.

FATAL ACCIDENT.—On the morning
of the 3rd of June, Mr. James L. Schol-
der, of Sidney, gave his son, a child of
about 10 years of age, a horse to hold of
the halter while it was feeding in the door
yard. The horse becoming restive, turned
and kicked the child with such force as to
cause almost instant death. This should
be a warning to others.

TORONTO UNIVERSITY.—Amongst the
third year men who distinguished them-
selves at the recent examinations in Toron-
to University is Mr. W. N. Ponton, of this
town. Mr. Ponton stood 3rd in 1st class in
French; 4th in Grammar; and 2nd in
Natural History. He also takes a first
prize in Modern Languages, and a first
prize in French prose. This is very creditable
to our young townsmen.

TEMPERANCE DEMONSTRATION.—The
gathering of the Workmen's Temperance
Associations of the district, for the
purpose of celebrating their anniversary,
will be held at Pictou, on Monday,
the 6th inst. The programme of the day
will be as follows: At 7 o'clock, a m. con-
veying excursionists, who will probably witness
one of the most imposing demonstrations of
the kind held in the Bay counties for years.

DOMINION DAY.—Mr. Stirling intends
having an excursion to the Falls on Satur-
day, 10th, enabling parties to spend Do-
minion Day and Sunday at the Falls, re-
turning on Monday. The excursion will
be by railway to Toronto, thence to Niaga-
ra by the steamer *Bowling Green*, and by
railway to the Falls. As the round
trip will be only \$4.00, we have no doubt
a large number will attend. Full particu-
lars will be given in a few days.

MORTUARY.—The Pictou *Clarke* says:—
"We are informed from the best authority
that the body of the late David J. Pryor,
Esq., after being embalmed at Pictou, was
forwarded from that city to Leghorn, and
thence it was shipped on board the
bark *Alma Campbell*, for Boston, on the
24th April last. This bark is due at Bos-
ton about the 10th of May. It is probable
that the body will arrive at its destination
about the 10th of May. The body of the late
Consul-General, who died at Rome from
the same disease which proved so fatal
to our respected townsmen, is on board the
ship."

DROWNED.—A correspondent writes:—"On
Monday, May 5th, Anne Edmonds, a child
of William and Sarah Edmonds, came to
death by drowning near Avalon, Missouri.
He was born in Canada, and was a student
at the University of Toronto. The following
are the particulars as far as could be ascer-
tained of the sad accident: About 4 p. m. he left Mr.

THE POWERS TO RECOGNIZE.
NO FURTHER ARMISTICE.

LONDON, June 3.—The *Times* despatch
from Berlin reports that Emperor William
will leave for Rms on Monday, 6th inst.
The same authority states that there is
much indignation in Serbia and Montenegro
at the report that Great Britain is supply-
ing the Turks with arms.
A despatch to the *Daily News* from
Vienna says it is announced that the Powers
including Russia, will recognize Murat
next week.
The *Times* despatch from Montenegro
declares a fresh armistice is impossible, and
says the Emperor will now continue in good
humour. The *Standard* despatches an-
nounce that the Emperor will leave Berlin
on Monday, 6th inst., and that George
Sardis is seriously ill.

DROWNED.—The *Mail* correspondent
of the Pictou *North* writes:—"We
are sorry to learn of the drowning of a
son of Jackson Bond, Esq., of Point
Traverse, a boy of three or four years of
age, on Wednesday, 3rd inst. The little
boy left the house with a pail in his
hand to find his brother who was ploughing
in the field at short distance. He strayed
over the stone fence, and fell into the
lake, and went on a precipitous rock to
dip up some water, which is nearly level
with the top of the rock and about four feet
deep, he slipped and fell in. About an
hour afterwards, his mother, Mrs. Bond, who
was standing near, and discovered him
standing erect with his head leaning for-
ward against the side of the rock, about
ten inches below the surface of the water.
Mr. Bond happened to be passing at the
time and was called, but the poor little
boy was beyond resuscitation."

VICTORIA COLLEGE.—The closing
exercises of the session commenced on Sun-
day, when the Rev. Dr. Loomis, of Clinton Springs,
N. Y., preached the Baccalaureate
sermon. The Science Association held a
meeting on Monday, when "Materialism"
was discussed, and on the same day Dr. Loomis
lectured on "Capital and Labor." Mr. J.
J. McLaren, N. B., of Montreal, in the
chair. On Tuesday a meeting of the College
Board was held, when the Rev. J. M. John-

A Russian Paper regards War as Imminent.

PLAGUE INCREASING.

Russia Recognizes the New Sultan.

The Times' on the Question.

Russian Champion of the Christians.

Disposition of Late Sultan.

London, June 6.—A Berlin correspondent of the Times writes: To judge from spoken and printed sentiments of adherents of the Austrian Government it might be assumed that Count Andriassy contemplates the possibility of abandoning Austria's policy of adopting the English view of the Eastern affair.

The Rudi Miri, already the St. Petersburg Slavonic paper, already regards war as imminent, and begins to discuss in what manner the Austrians will probably be concentrated to resist the Russian attack. The fact of such an article being published with impunity is a serious intimation for reflection.

According to intelligence received through Russian sources the reports are still rife with rumors of a Russian invasion of the Austrian Empire, and about 700,000 and 400,000 are reported daily.

The Times' paper says that Russia agreed on Saturday to recognize Mural as the one in question is not to be taken into the Province, its condition reflecting the highest credit on Capt. Harrison and the other officers of the Company.

LEMBERG. The lumber market is now understood to be a little more favorable than it has been for some time past. Stocks in some of the United States markets are running low, and the demand seems likely to be greater in a short time. Some considerable sales have lately been made here at prices which have not been surpassed, but the rate is not to be considered as a permanent one of the quotations which have hitherto ruled. We trust that the favorable turn of the market has taken will lead to profitable business before the close of the season.

TELEGRAPHIC DEMONSTRATION.—The anniversary celebration of the Workmen's Temperance Association of the Bay district, held at the Hotel de Ville, was a great success. The weather being favorable and the company numerous. At a little after 7 a. m. the company gathered at the Hotel de Ville, where they were met by the Belleville brethren, and a numerous party of ex-cathedra, about 300 in all. Calls were made at Northport and Mill Point, and Hieton was reached at 10:30, where a hearty welcome awaited the members of the Association at the hands of their brethren of that hospitable town. The Hieton and Newburg Associations, which turned out strongly, and were accompanied by a large number of their friends, on the steamer Norfolk and Kingston, had arrived in advance of the Belleville Association, but the Kingston Association did not join in the demonstration, owing to its being, to their being unable to procure a suitable steamer. At 11 o'clock a procession, composed of some 600 members of the Association, was formed and proceeded through the principal streets to the Agricultural Hall, where addresses were delivered by several speakers, and amusements of various kinds indulged in. The afternoon's proceedings were rendered additionally interesting by a game of base ball between the Hieton and Newburg Clubs, which the former won by a considerable number of runs. After a very pleasantly spent day, the Belleville Association took the steamer at 10:30, and arrived here shortly before 11 o'clock, well pleased with the proceedings of the day. The next celebration will take place in Napanee on Tuesday, June 20th, 1877.

CHAPTER I.
"You shall marry Godfrey Marsh, and you shall have him for a husband, acting for your father, in that grim fashion of hers, which told her that her mind was fully made up. 'He is rich. He can give you a home second to none in the country. He can give you position and influence.'"

"I don't want a home, if I have got to marry for that, and nothing else," answered Mercia, bitterly. "I don't care for all the position and influence Godfrey Marsh can give me, if I have got to live with him. I hate him. I hate him!"

"I shall never change my mind," Mercia answered, with something of her mother's grim determination in her voice. "You are talking of Dick Graham, of course," sneered Mrs. Stanhope.

"He is a much more desirable fellow than Godfrey Marsh, I suppose. I infer that you may not hesitate to accept the position and influence he could give you, if Mrs. Stanhope were not blind."

"I have never said anything of the kind," answered Mrs. Stanhope, slowly. "I have never said a word to any of the kind, and I certainly shall not say it now."

"You are talking of Dick Graham, of course," sneered Mrs. Stanhope. "He is a much more desirable fellow than Godfrey Marsh, I suppose. I infer that you may not hesitate to accept the position and influence he could give you, if Mrs. Stanhope were not blind."

"What that all?" Mercia said it sharply, as if the words cost her a great effort. Her face was very pale.

"He never cared for me, I'm sure," Mercia answered, her lips set in a grimace, and then she turned away.

"It was a pleasant afternoon in October when Mrs. Stanhope died. The sky was full of dusky vapours—a haze through which the sun shone dimly and goldenly, and the hills rose by some like the hills of some distant land."

"Mrs. Stanhope had been falling slowly for years. Her life had faded as the day fades, and she could not tell the light of the sun, nor the light of the moon."

"Well, there's something in that," said Mercia. "There's something in that," said Mercia. "There's something in that," said Mercia.

Daily Intelligence.

BELLEVILLE, SATURDAY, JUNE 10.

Town and Vicinity.

TOWN COUNCIL.—The Council will hold a regular meeting on Monday night.

COUNTY COUNCIL.—The jury, having completed all the business of this session adjourned until Tuesday, October 10th.

THE YACHT.—A new and commodious club is being placed on the *Perles*.—Mr. Purdy has sold the old *Perles* (formerly the *Garibaldi*).

THE CRILLA.—Nature abhors a vacuum, but the policemen don't, that is when there is nothing but empty space in the cells, as there was last night.

QUARTER SESSIONS.—The County Court and Quarter Sessions will be held during next week, commencing on Tuesday. Several important cases will be tried.

RIFLE CLUB.—The 49th Battalion Rifle Club met last night and took steps for the purchase of ammunition, and for the practice of the team for the match with the 49th marksmen at Orange on July 4th.

THE WILMINGTON FERRY.—We have been informed that Messrs. Marshall, and Hill, of the 49th have been offered places on the Canadian train of twenty who were to shoot at Wilmington this year.

NEW YACHT.—The *Beaver's* Mill Point correspondent writes: "The pleasure yacht *Leaf* (Hugh Hadden's) which was launched here on Wednesday last. She is 9 feet beam, 16 feet keel, and a very handsome model."

RAILS.—The "dry spell" has ended, fine showers having fallen on Thursday and yesterday. The influence of this additional moisture on vegetation is already noticeable, growth having been accelerated in a wonderful degree.

BARN BURNED.—A telegram from New York reports that during the storm yesterday forenoon, a man named Jas. H. Foster had two barns struck with lightning and burned. The animals and grain were taken out. Fairly injured.

TROTTING.—A trotting match between two horses owned in town and one animal owned elsewhere, was to be decided today on the Bayview Driving Park, which has lately passed into the hands of a new manager.

DISSEMINATED.—Several sidewalks in town are gradually getting into a very bad state, and unless repairs be soon made, the Corporation will be fortunate if accidents do not happen and consequent heavy disbursements for damages have to be made.

FRENCH BOYS.—The Grand Lodge of Pretoria Boys will hold its annual session in Toronto, commencing on Tuesday. Hailed by John Lodge, Belleville will be represented by Messrs. James Moon, John Wood and Richard Williams, who have been appointed delegates.

MORE DISTURBANCES.—There were more disturbances in the vicinity of Fowler's house last night, and the police were summoned to prevent a threatened breach of peace, which they succeeded in doing. If some arrests were made in that vicinity, the influence of such demonstration could not fail to have a salutary effect.

ARRESTED.—Young Clark, one of the burglars who stole cheese from factories in Tonding, and who was tried here and sent to the Central Prison, will be brought into court on Wednesday on a charge of assaulting his mother-in-law on a charge of assaulting her in discharge of his duty. The prisoner was taken to Port Hope for trial.

ACCIDENT.—We regret to learn of a serious accident which happened to Mr. R. Rickney, on the 9th inst., who lives near Shamonsville. It appears he was on the end of the barn shingling, and from some unexplained cause, he fell from the roof a distance of about thirty feet, striking on his head and shoulder. He was picked up and carried into the house and up to this morning remained in an insensible condition. His recovery is considered doubtful.

YACHTING.—The Kingston News referring to the visit of the Yacht *Katie Gray*, of Belleville, to Kingston, says: "The second chase yacht *Katie Gray* of Belleville, having arrived in this harbor last night, is a visit to the Countess of Dufferin, it was decided to try conclusions between her and the local second class boat *Emma* and *Zitella*. Accordingly a match was made for a prize of \$50, and the three boats started about eleven o'clock this morning. There was a light wind, such as suited the stranger vessel, and at two o'clock, on the completion of the first round, the *Katie Gray* was ahead of the *Emma* and *Zitella* not being in sight from behind. The race was finished in eight minutes and the *Katie Gray* coming in second place, she was victorious by the time.

Meanwhile there is a break in the Convention, and the friends who speak of work done by his supporters during the past week in the north-west. "This is the candidate we have most to fear," said a friend of Hayes.

New York, June 10.—Ben Butler has been interviewed upon the Mulligan-Blaine matter and denies all connection with what designates as a force. Butler outlines what would have been his method of procedure if elected in the movement as follows: "Do you suppose if I had been Mulligan's counsel or planner of attack on Blaine that I would have permitted Mulligan to go to Washington with these letters unless he also had copies and photographs of them? No sir, and then if Blaine desired to buy originals he could buy them when they were in my hands. I am certain they would be forthcoming."

Washington despatches indicate that the Senate will be left without a quorum on Monday.

Several Senators have already left for Cincinnati, and about thirty will leave in a special car to-day.

A *Times* special from Raleigh, N. C., says trouble is brewing in the Democratic camp in that State, and a split is threatened. Hon. Josiah Turner, recent editor of the Raleigh *Standard*, in a speech last night announced himself an independent Democratic candidate for Governor.

He also reflects on the District Attorney in his language of delinquency liquor dealers to trial.

London, June 10.—Sir H. James, Liberal member of Parliament for Taunton, has given notice in the House of Commons that on Monday he will ask Mr. Buxton, under Foreign Secretary, whether Secretary Fick's despatch of the 22nd of May, relating to the case of Winslow, reached the Foreign Office on the 10th June, and whether there is any objection to lay it on the table of the House. It is certain that the Government will not again ask for Winslow's removal, unless it is decided to have the whole matter argued before the full bench, of which there is some probability.

London, June 10.—A pamphlet issued by General Ignatieff, the Russian Ambassador at Constantinople, has created a sensation. It proposes to split up the Turkish Empire into five principalities, to be named respectively Bulgarian, Albanian, Servian, Bosnian and Greek.

Washington, June 10.—Speaker Kerr's illness threatened a serious turn, but to-day he is much improved.

New York, June 10th.—The Pennsylvania Railroad Company still there is no objection to lay it on the table of the House. It is certain that the Government will not again ask for Winslow's removal, unless it is decided to have the whole matter argued before the full bench, of which there is some probability.

General Ignatieff, the Russian Ambassador at Constantinople, has created a sensation. It proposes to split up the Turkish Empire into five principalities, to be named respectively Bulgarian, Albanian, Servian, Bosnian and Greek.

Washington, June 10.—Speaker Kerr's illness threatened a serious turn, but to-day he is much improved.

New York, June 10th.—The Pennsylvania Railroad Company still there is no objection to lay it on the table of the House. It is certain that the Government will not again ask for Winslow's removal, unless it is decided to have the whole matter argued before the full bench, of which there is some probability.

BELEVVILLE, MONDAY, JUNE 12.

Town and Vicinity.

Don't miss the last great auction sale of pictures tonight at the Victoria Buildings.

Doors—Owners of dogs are required to register them on or before the 15th inst., at the office of the Town Clerk.

A Decline—Butter has fallen greatly in price within the last few days, and on Saturday choice sold at from 13 to 15c.

Board of Education—The June meeting of the Board will be held to-morrow evening in the Council Chamber at nine o'clock.

Town Council—The Council will hold its regular fortnightly meeting tonight, when a great deal of interesting business is likely to come up for transaction.

Eggs—The export of eggs to-day was 6,350 dozen, which were valued at \$750. Prices are declining in the Boston market, hence the reduction in the value received here.

Lumber Notes—The last of this year's drive of logs consisting of about 45,000 pieces belonging to Messrs. Gilmore & Co. and Rathbun & Son, crossed Stone Lake on Saturday, the 10th inst.

An Upright—The new yacht recently built at Mill Point was up on Friday in the Reach. The persons on board had ventured out without putting ballast in the keel, which was upset in a squall. The steamer *Skowron* picked them up.

Buildings—Although building operations are not so brisk in form as they were last year, yet the class of buildings now being erected in town is very superior, most of the new structures being large, elegant and costly. This is a pleasing indication of the prosperity of the town, despite the "hard times."

Invitation For Deaf and Dumb—We learn that Prof. Cady, Mathematical Master in the Normal School, Toronto, is examining the classes in the above Institution this week. Prof. Cady is well qualified for this task, as he is a deaf and dumb himself, and has been a long while connected with the Normal and Model Schools in Toronto.

The Sessions—To-morrow the County Court and General Sessions of the Peace will open before the County Judge. There are several important cases for trial, amongst them those of John Harkins for aggravated assault on his wife, and John Young, charged with stealing a sail and ropes from the yacht *Enid*.

His Fishing—The fishing on Stone Lake this year has been remarkably good. A little boy of about 15 years of age caught in one day with a hook and line 500 pickerel and bass at the mouth of the river near the lake, and three fishermen succeeded in landing 44 pickerel and one eel during an afternoon's fishing on the lake.

Trotting—A trotting race took place over the Bay side course on Saturday afternoon. There were three entries, two being local horses and one from Stanstead. The Belleville horse was first and second, Mr. Morton's horse taking first money and Mr. Corbett's second. The time made was a little over three minutes, which is good for untrained horses.

Success—The numerous friends that are in the town of Mr. H. A. Enghelmann, the escapee-gambler, will be pleased to learn that he has been successful in presenting the best plan for the laying out of two of the Toronto parks. The Toronto papers speak very highly of Mr. Enghelmann's plan, and we offer our congratulations on this notable triumph of the skill of our former townsman.

Police Matters—Only one man lodged in the cells on Saturday night and again last night. The constables are today in the mood of summer clothing, which ought to be procured for them without delay. The Commissioners met this morning and received the resignation of constant Rutten, which was accepted. He is likely to make an efficient officer.

Lumber—A telegram from Mill Point on the 10th, says: "The *Empress of India*, the magnificent new steamboat built for the accommodation of the excursion traffic of Toronto, was launched to-day from the yard of H. B. Rathbun & Son. The day was propitious, and over a thousand spectators were delighted witnesses of the gay and interesting scene. At half-past three the ceremony of christening took place, performed by Miss Mary, daughter of Mr. Arthur Harvey, of Toronto, one of the projectors of the enterprise, and the beautiful vessel, whose fine proportions were universally admired, sailed, and did not without any accident whatever into the waters of the Bay of Quinte. She is the largest steamboat built at this well known

yard, and the activity of her construction and the elegance of her model reflect credit upon Mr. Jamieson, her designer, and all concerned in her construction. In a few days the *Empress* will leave for Toronto, and be transferred to the Toronto Navigation Company."

APPOINTMENT.—The following appointment appears in *National Intelligencer*:
Robert Parker, Esq., to be a Justice of the Peace, in and for the County of Hastings.

CRICKET.—A match has been arranged between the Dufferin Cricket Club, of the city, and the Pickwick Club, of Colborne, which will be played in the last named place on Friday next. The Colborne Club in question is very strong, and if the Dufferin have to attempt it will be no disagreeable victory if achieved, will be highly commendable.

NEW DOMINION MOVIES.—The June number of this monthly contains a portrait of Hon. L. A. Wilnot, the first Lieutenant-Governor of New Brunswick. The various departments of the magazine are replete with interesting reading, and fully sustain the well-earned reputation it has gained in Canada. As the July number commences now, the present is a favorable time to subscribe. The price is \$1.50 per annum, in advance, or \$1.75 per annum, if paid quarterly.

DOMINION DAY.—A proclamation by the Lieutenant-Governor of the Province, on the observance of the 1st of July (Dominion Day) as a public holiday, will fall on Saturday, the Monday following. It is celebrated in the United States, and it is believed that a petition to that effect has been circulated. We trust that the matter will be considered by the Town Council to-night, and decision made by the municipal authorities as to whether the celebration shall take place upon, although we can scarcely see how, in the face of the proclamation of the Lieut. Governor, any other day than Saturday, July 1st, can be chosen for the celebration.

THE DAVOS HOUSE.—Since this leading hotel passed into the hands of Mr. Henderson, its proprietor, it has undergone extensive improvements, and is now, in elegance of appearance and efficiency of management, second to no hotel in the country. The office has been newly papered, painted and varnished, and a new office introduced for the convenience of guests; together with writing desks, &c. The bar has been very handsomely papered, the floor marbled, and very much improved in its general fittings. The dining room, library, rather small, but in appearance, has been rendered neat and lightened by the painting of the walls in a very pretty shade of pink. New and large windows have been introduced throughout on the ground floor, and the cellar to which the house has been renovated and improved, at a very large expense. Mr. Henderson is a highly popular host, and we are glad to know, from a profitable business, which success he is well entitled to, to see him so personally engaged and the enterprise and liberality of his management.

GRAND JUNCTION RAILWAY.—The Bobcaygeon Division of the 10th inst., has the following respecting the Grand Junction Railway: "The Midland Counties scarcely take so deep an interest in the progress of the Grand Junction Railway as its importance deserves. The Company, notwithstanding the many difficulties it has to contend with, still continues to make progress. On Wednesday at the meeting of the Hastings County Council, a deputation of the Grand Junction Railway Company was heard. They asked for an amicable settlement of the litigation still going on as to the sale of the County's stock in the railway, proposing that the County should sell the stock at 100 cents and pay the \$35,000, due on it, and the Company will at once complete the road to Stirling and equip it. In the course of his remarks, Mr. Kelso, President of the road, stated that large business had been secured in several of the townships in Peterborough county, and that an amalgamation with the Midland is almost certain on the completion of the line to Peterborough."

WHAT THEY EXPECT.—The Kingston yesterday are evidently not satisfied with their defeat by the "Katie Gray" last week, so they propose coming to Belleville on the first of July to try their mettle against our fleet. The *News* referring to the race at Kingston says: "The race was therefore won by the 'Katie Gray,' but it will be seen by the above figures that the 'Katie Gray' was twenty-three minutes slower than the 'Zetia' on round trip. The Peterborough boys first time, and only a few minutes later than the 'Zetia' gained on her six minutes. The owner of the 'Zetia' feels confident that he has the best boat, and intends to show the 'Katie Gray' a clean pair of heels at Belleville on the first of July. Of course our Belleville friends will crow over winning this race, but they only do so from the fact of the 'Katie Gray' being sailed by Captain Cuthbert, and the other by 'Laurie' of Kingston, and we have no doubt that she will have a view from the rear on the date above mentioned. This is satisfactory, as showing that the Kingston yachtsmen are true braves, never knowing when they are beaten. In justice to Cuthbert, it may be said that he sailed the 'Katie Gray' in a clean pair of heels at Belleville on the first of July. Seeing Better Days.

The widow Minton had better days. How her luck would have changed if she had seen them. Better days hung about her, but she had not seen them. She had not seen them.

Thursdays were the best days. She had seen them. She had seen them. She had seen them. She had seen them. She had seen them.

The following from the Rural World is
especially worthy of attention of the West-

That the climate in this
latitude is not favorable for the production of
maize, wheat, sugar beets, carrots, etc.,
on a small scale, is a fact which cannot be
disputed. It is not, however, a fact that
cannot be grown, especially if the ground
be properly tilled and the seed be good. It
will not be any pretense to argue that there
is not just as much wheat in the soil of the
West as there is in the soil of the East, or
that there is more wheat in the soil of the
West than there is in the soil of the East.

A Farm-House Flirtation.

(From the New York Sunday Times.)

It was towards evening, or, as the homely

country phrase goes, "near twilight," in

one of the old-fashioned stone farm-houses

that dot the richly wooded hills of the

Northwestern New Jersey. The lady

was a young woman, having been the

second of many nieces of Washington's

Army during his prolonged stay at Hack-

ensack, and she was the time when New York

market was largely supplied with con-

gressed from the Hudson River. She was

generally with the choicest fruits raised from

her own soil. New York being a region of

greatly rich in the matter of the state

of the Palisades, at the village of

Neighborhood, extending to where the line

of New Jersey and New York States met

at Albany, near the Hudson River, she

was the farmer of this Ridge devoted her

life to supplying the Washington market

with the choicest fruits. She was a

very early in the afternoon until daylight

morning, processing of the great duty

of the New York market, the early South-

ern fruit having damaged the Jersey

fruit in the market, and now it is only for

her to be the leader, and now it is only for

her to be the leader, and now it is only for

her to be the leader, and now it is only for

her to be the leader, and now it is only for

her to be the leader

Influence of Vegetation on Health.

Our instinct leads us to delight in flowers.

Their beauty and perfume have a pleasant
attention for us. We have little dream that
we are thus led to surround ourselves with
plants which most powerfully conduce to
health. No doubt that the certain influence
of the vegetable kingdom which are ex-
ceedingly deleterious for us in a word of
flowers, such as the rose, which have
a strong influence on the human system,
and the influence of the vegetable kingdom
on the human system, is a fact which is
well known to all who are acquainted with
the history of the human race. The history
of the human race is a history of the in-
fluence of the vegetable kingdom on the
human system. The history of the human
race is a history of the influence of the
vegetable kingdom on the human system.

"was imposed upon." The reason he was

so, says, was because "I had been so vic-

timized before that I wanted to escape

"being forced a second time." He had

had experience, and knew the game party

had connected himself with, and there-

fore desired to place himself beyond the

power of those "purity" loving comrades

by whom he was surrounded, for he had

the "court" he saw that there was a real

"leanness going on, on the part of the

"purity" who had charge of the election, and

he wanted to "cut himself out" against

"that recklessness." But as evil com-

munications corrupt the most pure, Mr.

Troxon did not come out as he might have

done. Among the *Herold's* items for print-

ing was a sum of \$112 for what Mr. Troxon

stated the printing of a "scandalous"

character, namely, where, when printed,

in circulation, by telling men where they could

go to see the *Herold's* office, which he (Mr.

Troxon) was not to do. This could only be

explained by the fact that Mr. Troxon

himself, that "when we are going through

a contested election, we have to suppress

"a good deal of mortification at things

which do not occur." Mr. Troxon also test-

ified that he had not attended the Commit-

tee meetings, while the Secretary and others

declared that he was there frequently, and

that he acquiesced in what was going on.

He declared he was the *Herold's* people's

candidate—that it was a compliment to give

them his address to print. Mr. Stewart, of

the *Herold*, swore he was not their candi-

date,—and so the evidence continued, each

trying to make the other as black as possi-

ble; so that the world will be able to judge

what amount of honesty pervades the Grid

ranks during an election.

When Mr. Troxon called the Commit-

tee together and explained the nature of the

expense to which they run in having had

printed during the contest, bills, fly

sheets, &c., which if laid along the road

would reach tens of thousands, he was

answered by the Committee, Mr. Troxon,

Brown, that "he didn't care a damn," that

"if he went into an election he went in to

"win, even if it cost \$200,000." Generous

and reckless soul Mr. Brown, when he

went to come out of his pocket a

true type, however, of the "Big Push"

Brown of Toronto.

There are many choice morsels in the

third column of evidence which were

given, but we must content ourselves to

give with the following extract from Mr.

Troxon's evidence.

The Grand Junction Railway.

The Bolognion Independent says—

At a meeting of the Council of the Village

of Hastings, a resolution was unanimously

passed authorizing the preparing of a By-

law, to be submitted to the qualified

electors of the municipality, to grant a loan

of \$50,000 towards the construction of the

Grand Junction Railway. In this action

may be seen an awakening of public inter-

est in one of the most important railway

schemes, which can affect the interests of

the Midland Counties. Here, in Bolog-

nion, the completion of the G. J. R. R.

would connect both sides of the great

waterfall, and effect would be brought about a very ex-

tensive territory. The Company would

probably amalgamate with the Midland,

and thus there would be a through line

from the fine harbor on Georgian

Bay, at Midland City, running through

this district, to the harbor at Belleville on

the Bay of Quinte, from whence grain

may be carried in barges to the coast, barge

ship at Montreal, without any lake risks.

So also with timber, which, rafted in the

Bay of Quinte, is free from the danger of

lake navigation. This undertaking deserves

the warmest support in this neighborhood,

and the promoters who have so long strug-

gled not only against the natural difficulties

of the undertaking, but also against those

invented by the railway lobby, who are

eager on the subject of Blacksmith's Shop.

The utmost encouragement can give them.

We sincerely hope the Grand Junction Com-

pany may speedily complete their line to

Peterborough, and we believe there is now

a reasonable chance of success."

The St. John's Fire.

The Montreal Star gives the following as

the corrected estimate of loss sustained by

the Insurance Companies, as given by the

various companies.

Royal Canadian.....\$ 30,000

National.....20,000

Maritime.....15,000

Commercial Union.....10,000

The Canadian.....5,000

The Northern and the Scottish Insurance

Companies are not as yet able to

estimate the full extent of their loss, owing to

the illness of their agent at St. John's. They,

however, believe their loss is not so heavy as

is stated.

RIOT ON THE WELLSLAND CANAL.—A serious

disturbance took place on Sunday last

between the Italians and the Irish work-

men employed on section twelve of the new

Wellsland Canal. The origin of the quarrel

is not very clearly given, but it resulted in

the free use of stones by the Irishmen and

revolvers by the Italians. One of the latter

was so badly beaten that he died during the

night, and several others were wounded.

An Italian was shot in the thigh. The

volunteers and the Thord police had to be

called out to disperse the rioters.

RAILWAY COLLISION.—A serious railway

collision took place on the 19th inst., at

the junction of the Great Western and

Grand Trunk Railways, a short distance

east of London. The Great Western train

was coming in and the Grand Trunk train

below another attempt is to be made to get a quorum of members together on Wednesday night.

MARKET SQUARE.—The condition of the market square is such that the credit of the town in respect of cleanliness, and the Committee ought to have the operation of cleaning it performed at once.

THE 12TH OF JULY.—The arrangement of District No. 3 and 3rd interval celebrating the coming 12th of July at this place, has been decided upon by the Rev. Mr. Edmund Adams. Proceeds to assist Lodge No. 302 in erecting a new brick hall in the 6th concession of Hunsford.

CROPS IN THE COUNTRY.—A travel correspondent writes: "The late rains have revived vegetation and crops are looking excellent. Farmers are looking for a fine harvest, which may be light in place, but above average. Potato bugs are numerous in the township, but as yet, no considerable harm has been done. Pasture is never better, which is seen in the quantity of milk delivered at the numerous cheese factories."

CONVOCATION.—To-morrow the annual convocation of Albert University will take place in the Metropolitan Hall at 2 o'clock. In the afternoon, the students will be attending exercises, consisting of the address of the Chancellor, the reports of the graduates, the admission of matriculants, the presentation of the prizes, &c. As usual, free to all who choose to procure tickets, the governing body of the University desiring to see as many of the friends of the institution present on the occasion as possible.

PERSONAL.—Hon. Adam Crooks, Minister of Education, will be present at the Convocation of Albert University. Several other distinguished gentlemen have also signified their intention of being present on the occasion.

GUIDE TO PHILADELPHIA.—Belford Brothers have just issued a "Guide to Philadelphia," which contains a large amount of such information as intending visitors to the Centennial Exhibition require. It can be purchased at the bookstores for a moderate sum.

THE CRUISE.—But for the presence of the boys charged with stealing James Milne's revolver and money, the cruise would have been empty last night, as no wandering vagabonds would have been there, and no one came under the notice of the "guardians of the night."

QUOTES.—The fine old game of quotes is receiving some attention in town at present. We don't know whether the Quote Club in existence or not, but several good pickers among their skill and muscle nightly on the lot adjoining Bill & Lake's lively tables.

NORTH HASTINGS RAILWAY COMPANY.—A meeting of the shareholders of the North Hastings Railway Company is to be held in the Company's office, Campbell street, on Monday, June 21, at 2 o'clock. The Board of Directors will be elected and other business of the Company transacted.

EXHIBITION TO-NIGHT.—The young ladies of Alexandra College will give their annual exhibition of graduating exercises in the College Chapel this evening. These exhibitions are always popular and attract large audiences, and have been more successful than any which has preceded it.

FURBER.—Anglers are expected to be having fine sport fishing in the Bay at this time. We noticed some fine strings of bass last night, and one fortunate amateur is said to have caught a black bass weighing 7 lbs and 5 oz. If this statement be correct, the bass is in question is the largest of which we have any record in these waters.

DOGS.—Before putting into effect the full effect of the law against unlicensed canine property by destroying it, the Chief of Police has instructed the force to invoke the terms of the Police Court against defaulters of dogs, and to try the effect of the law by destroying it. A number of dogs registered up to noon today were 43.

THE REVIEW.—We have received the first number of the Review, a new journal, which is to be published daily and weekly by O. Cliffe, in the city of St. Catharines. It is neatly got up and nicely printed, and contains a great deal of interesting matter, and a fair amount of advertising patronage, and bids fair to achieve success, as its editorial articles are able written and its columns well filled with a good selection of reading matter. In politics the Review is Liberal-Conservative, and it promises a staunch adherence to the platform of the party.

BELLEVILLE, SATURDAY, JUNE 24.

Town and Vicinity.

THE COUNCIL.—Monday night is the regular night of meeting for the Town Council.

REISTRATION.—The number of dogs registered up to noon today was 138, or 11 in advance of the number registered up to date last year.

ACADEMIC EXERCISE.—We have to thank Messrs. J. C. Hayes, U. S. Consul, and Mr. Geo. N. Loewen for some nicely selected topics which they captured in Rawdon Creek yesterday.

BAPTIST CHURCH.—The Rev. W. S. Patterson, formerly of the Baptist Church, Belleville, and now of Ottawa, will preach in the Baptist Church to-morrow evening at 7 o'clock.

MURCHISON CLUB.—The regular meeting for June of the Murchison Club will be held in the Shire Hall on Monday evening next. Subject for discussion "The Infusoria," with microscopic illustrations.

NEW POTATOES.—We acknowledge the receipt of some new Potatoes, Lettuce and Rhubarb from Mr. Sinfeld, Glasgow. The potatoes are of the early variety, large and fully developed, and are the first on the market. The rhubarb and lettuce are very choice.

SPECIAL SERVICES TO-MORROW.—At twenty minutes past eight on Sunday night "Pamela's Hand," will play a special Engraving Meeting in their Hall over the potatoes of the early variety, large and fully developed, and are the first on the market. The rhubarb and lettuce are very choice.

IN TOWN.—Mr. Quentin McNeider, formerly Manager of the Belleville Branch of the Bank of Montreal, and Mr. Henry E. Fittler, both of whom have been absent from town for a considerable time, are again here on a visit. Their many friends will be glad to see them.

A VISIT.—The children attending the Public Schools of the town will on Monday afternoon pay a visit to the Institution for the Deaf and Dumb, there the system pursued in the education of the unfortunate class for whose benefit the Institution was erected.

PRACTICE.—The team of the 49th who are to visit Oswego, to shoot the return match with the representatives of the 48th regiment of that city, had had occasional recreation during the week, but they will not begin regular work until next Monday. The weather has been favorable, and the ground made very respectable.

THE COW BY-LAW.—There is plenty of work for the Inspector under the Cow By-law, as cows can be seen about the streets at all hours. This By-law has been enforced in a very merciful manner, and if all headstalls which are to come under operation are to be obtained, a different policy ought to be pursued.

DOGS.—Those who have neglected to register their dogs had better do so at once; as the police are on the war path against delinquents. Several persons have already incurred costs in the Police Court, and there have been informations laid inwards of twenty additional cases. The determination is to enforce the By-law strictly.

RETURN MATCH.—The return match between the Dufferin Cricket Club of Belleville and the Pickering club of Cobourg will be played here between the 1st and 10th of July. We notice that the Dufferin club has committed the mistake of calling the Dufferin "Belleville" Cricket Club. Our Senior Club, which bears that name, has not played a game this season as yet.

PERSONAL.—Wherever by the account of the annual dissection of the late Michael Collins, taken on the 22nd, amongst the successful candidates the name of Master W. F. Lynch, who obtained the prize in Greek; 1st success in Rhetoric, 1st prize in Latin; 1st success in French; 1st prize in the 2nd division of Algebra; Master Lynch, is a son of P. P. Lynch, Esq., of Belleville, and has a capital record, considering that he has only been in the College for six months.

COMMITTEES TO RECEIVE THE BELLEVILLE TEAM.—The Oswego Palladium of Wednesday evening says:—"At a meeting of the officers of the 48th Regiment last night, presided over by Gen. Sullivan, the following committees were appointed on the return visit of the Hastings team, 49th Regiment, Belleville, Ontario: Reception Committee—The 48th team, Messrs. J. B. Barker, J. H. Barker, L. E. Barker, J. H. Barker, G. White, A. Cavalier, Col. H. A. Cooke, Captain Turner, Currier, Waugh, Thompson, Quartermaster, Penfold, Deception Committee—Major J. F. Barker, Captain Lynch, Lieutenant Ward, Invitation Committee—Col. Houghton, Col. Cooke, Tomsie and Houghton—Gen. T.

Sullivan, Captain Thompson, J. A. Barry, J. S. Goodrich, James Cronley, J. A. Barry.

Time says in addition—"The town and their friends will be quite ready to entertain a banquet after the fireworks in the evening."

THE MARKET.—The watering of the market square today was not sufficiently performed, the dust being about three inches after 10 o'clock. If the service is to be paid for by the Corporation it will have to be better than that it was today. The same remarks apply to Front Street.

YACHT.—Mr. Hayes' yacht formerly the Goddard has been named a streak, fully decked over and presents a neat appearance, and promises perfect safety. Mr. W. Carter is fitting up a small open yacht of McCorbell's build. The Lady Blanche got aground again, landed yesterday afternoon, and is stuck to be procured to haul her off.

NEW CHURCH.—We take the following extract from the Pictorial Gazette's account of the dedication of the new M. E. Church in that town:—"The Church is capable of seating about 700 people. It is 74 ft. long, and 40 ft. wide, with a tower and spire 130 ft. in height, and cost \$10,000. A new and beautiful and very powerful organ has been put in at a cost of \$800. A large number of visitors came in from the surrounding country, and the str. Rochester brought some higher from Belleville, and the Norfolk about 200 from Niagara. It was some little after the appointed hour for the commencement of the services before they began. Bishop Carman gave out the 96th hymn. After singing and prayer, the Rev. Dr. Lee, of Auburn, N. Y., read the lesson from the 8th chap. of Chronicles, the 97th hymn was sung. The Rev. Dr. Lee—who has had great experience in conducting religious services—then announced a paper from the 12th chap., 1st verse of Paul's Epistle to the Romans. His remarks were characterized by great fervor and ability, and were listened to with great attention by the large audience assembled."

THE "CANADIAN METHODIST MAGAZINE," for July—"The new series of this popular monthly opens with a vigor. The July number contains an excellent St. John's chapter, the Rev. W. Morley Pearson, L. L. D., with a biographical sketch, and also a beautiful poem from his pen. Dr. Ryerson's article, "Protestantism of Queen Elizabeth," is suffused with a patriotic glow. The admirable paper from the pen of Dr. Douglas, breathes the spirit of his remarkable eloquence. Mrs. Olin's article, "The Great Britain," is a beautiful tribute by a gifted woman to the noblest of female forms. The most attractive feature of the number, we judge, will be the admirable stories written by Edward Eggleston and Mr. Guy Poore, which promise to be of great interest. A paper on "The Higher Life," and a capital sketch of "Irish Evangelism," are also given. A striking feature of this Magazine is the blending of practical religion and literary culture. The Editor continues his papers on the "Puritan Question," which have been received with much favor and discussion. Several important topics and recent books. This is a cheap and yet a most useful family reading. S. Rose, Toronto, publisher. Price \$2.00 per year.

BEHAVIOR.—The 49th who are to visit Oswego, to shoot the return match with the representatives of the 48th regiment of that city, had had occasional recreation during the week, but they will not begin regular work until next Monday. MORNING DESPATCHES.

EUROPEAN.

THE EASTERN QUESTION.

Passage of the Dardanelles.

THE WAR FEELING IN SERBIA.

LONDON, June 24.—The Paris Correspondent of the Times, says the Eastern Question has been revived through a number of alarming rumors which it only remains to show that it would be a great mistake to fancy the question is approaching a solution.

The Russian Telegraphic Agency announces that, conformably with the desire of England and their own firm resolutions, that the other powers have instructed their naval commanders to respect the articles of treaties relative to the passage of the Dardanelles.

A Berlin dispatch to the Post reports that Prince Milan, of Servia, is in serious difficulty. The influence of Prince Kargovitch, president to the throne, is being used to induce popular opinion, which is reported to be in favor of war with Turkey. Kargovitch's popularity is reported to be increasing, and the Servian Government speaks of disturbances among the people.

AMERICAN.

FIRE IN NEW BRUNSWICK.

Lynching in Kentucky.

THE ST. LOUIS CONVENTION.

Opinions of Southern Delegates.

CALIF., June 24.—A disastrous fire broke out at Meiklan Junction, New Brunswick yesterday. Haddock's hotel and the European & Northern American Railway depot were destroyed. The telegraph communication was interrupted.

CINCINNATI, June 24.—A mob of masked men appeared at the jail at Cincinnati, Boone County, Kentucky, last night, obtained the keys from the jailer and carried off a colored man named Williams, awaiting trial on a charge of murder. They were preparing to hang him when he got away, and ran, but was shot and badly wounded. The mob returned the prisoner, hung his body to a tree and killed the body with bullets.

ST. LOUIS, June 24.—No full State Delegation came, as yet, on hand. Perry H. Smith of Illinois, places the State at \$23 for Tilden, 10 for Davis and 9 for Hendricks. Individual delegates from the Southern States talk pretty freely, but are careful not to commit themselves to any particular opinion or line of action. A prominent one from Alabama says Gen. Hancock has gained largely in the South lately. He says that the State of the Southern Democrats. Although the South has a majority of the Democratic vote necessary to elect a President, yet they did not propose to elect him. They want a candidate who will carry the election, and will lead them to victory and place the Government in the hands of the Democracy. Governor Hendricks, this gentleman says, has a strong chance in the South, as it is the strongest man in the North, and can carry New York, and such other States as will insure success. The South will gladly accept him and give him the vote. If the South has any demand to make, it is that the nominee of the Convention shall be a man against whose loyalty to the Federal Government there is no shadow of a doubt. The nomination of Hayes by the Republicans has unsettled opinion in the South somewhat. Tilden is the choice of the South, and it is thought that some other man will be stronger and more successful before the people.

Other Southern delegates express opinions similar to the above.

Death of a Minister.

THE PUBLIC DEBT.

U. S. BANK STATEMENT.

MADRID, June 24.—The Committee of Congress upon the Government Bill modifying the law, which has been received here, says that it is in favor of the Bill and is opposed to it.

PARIS, June 24.—The publishers of Les Droits de l'Homme have been summoned before the authorities for publishing Henri Rochefort's articles in that journal.

CONSTITUTIONS, June 24.—There is no doubt that the French people are in a state of revolution here. Complete tranquility prevails. It is expected a decision will be reached almost immediately respecting contemplated reforms.

KIAMI PAUL, ex-President of the Council of Ministers, has been received here. The Government is engaged in devising measures to assume the payment of interest on the national debt, in conformity with the decree of October 1875.

The Convention with the Imperial Ottoman Bank, which will collect the revenues affected by the arrangement, is in course of negotiation. Intelligence has been received here that the Turkish General Minkar Pasha, has entered Vienna unopposed, with another corps of 15,000 men.

A proclamation has been issued by the Grand Vizier, urging cordiality between the Christian and Mohammedan population of the Empire.

LONDON, June 24.—The American residents of London are preparing to celebrate the coming 4th of July by a dinner.

Arrived on the steamship Nevada and Australia, from New York.

Matthew Noble, the well known English sculptor, is dead.

NEW YORK, June 24.—Weekly bank statement: Loans increased \$1,555,000; specie decreased \$177,000; legal tenders decreased \$150,000; deposits increased \$140,000; circulation decreased \$425,000; reserve decreased \$2,350.

NEW YORK, June 24.—The business of Cochran McLean & Co. has been placed in the hands of receivers.

The Southern Silk Company assigned yesterday. Liabilities \$700,000; nominal assets \$800,000.

The steamer Angler, from London and Boston, from Bremen.

NEW YORK, June 24.—Five hundred and fifty thousand dollars in gold coin was shipped to Europe to-day.

WASHINGTON, June 24.—Probabilities. For the Middle Atlantic States, falling barometer, south and north-west winds, and the coast cloudy and possibly rainy weather, higher followed by lower temperatures, and in the interior clear, dry weather.

An amusing fellow, who is evidently opposed to all progress, recently failed to have his likeness taken by the photographic process, stating as a reason that he was a graphic portrait.

"Will you be so good as to play a few

pieces for me?" said Wolfgang in a voice

without which the organ would be like a

mute.

"I will be so glad to do so," replied

Wolfgang, and he took hold of his

great organ.

"See," he exclaimed, "there is the friend

of my father, the organ."

"Scarcely, however, had the mother of

the great Mozart begun to play, when

she was so struck by the strength and

power of the organ, that she was

profoundly moved, and began to weep

Wolfgang was not quite eight years of

age when he appeared in 1781, at the court

of Vienna. He played the organ in the

king's chapel, and was considered to

equal the greatest organists of the

world. As this organist was named two

years before the death of the

emperor, the king's daughter, and the

emperor's daughter, were both

present at the concert. Wolfgang was

then thirty-four years old when he

was killed. He was much engaged in the

Marrying an Editor

Yes, I'm Peter Snow, an editor, wife

I will remember the day when Mr. Snow

Mr. Snow, and thinking it would be a fine

thing to have a son-in-law like him, I

decided to marry him, and I became Mrs.

Snow. I have now ten years of married

life, and I can truly say that I have never

known a more devoted and faithful

husband than Mr. Snow. He is a most

valuable and reliable man, and I am

glad to have a son-in-law like him.

What do you say, my dear? he asks.

"Did you ever that I spoke to you about

it, my dear, I am sorry, but I for-

got about it. It still came to-morrow."

Another hour's silence, which is relieved

by the baby's crying, and, rather liking a

noise of that, I made up my mind to

quit him."

"My dear," says Mr. Snow, after he has

cried a minute or so, "you had better give

the baby some candy, let me tell you; he

is a very good boy."

The baby is still. Another hour passes

without a breath of news. Brooming time,

and a lamp and candle for the night.

Mr. Snow goes to bed with his papers that

he has not time to read, and the next

morning he goes to bed with his papers that

he has not time to read, and the next

Specialties in Medicine.

From the Toledo Blade.

We publish an advertisement of a lengthy ar-

ticle describing the system of the noted

physician, Dr. R. P. H. of Toledo, Ohio, in

which he sets forth with considerable force

and clearness, his reasons for rejecting his

whole time and thought to a single depart-

ment of medicine, that of treating of lunging

chests. The article also takes

up the subject of diagnosis, methods of ex-

amination and treatment, etc., and will be

found to contain many valuable hints to the

physician. Dr. H. is the author of a work

which has already been translated into sev-

eral languages, and is a most valuable

illustrated paper, and devoted to

the treatment of the chest, and instructions of

people at large, and which may be had for

\$1.00 per copy by addressing the author, Dr.

R. P. H., Toledo, Ohio.

Dr. H. has now been before the general

public long enough to show the wisdom of

a careful estimate of the efficiency of his

treatment and his medicine, and the fact

we are glad to know, has been universally

favorable to him.

Dyspepsia.
